## THE SCHOOL YEAR.

In submitting our report of the school year of 1896 it is with a certain degree of pleasure that we announce the results. Five schools have been in session 24 weeks, one 20. Our schools throughout the year have been as a whole, highly successful; all but two of the teachers have never before taught in our district, but took hold of their work with energy, and in most cases equalled our expectations and those of scholars and parents. Arithmetic has been the leading study and several of our pupils have attained more than ordinary credit.

One bright little girl, BERTHA LADD, of Melvin Village, died of scarlet fever, bringing sadness to her associates, and causing a vacation in all of the schools in the district, except at Tuftonboro Corner. No epidemic occurred, yet it was thought best to use caution in the matter.

We hope to secure the services of several of our teachers to continue their work, and have reason to believe that our

schools for the ensuing year will reflect much credit upon teachers and pupils.

In most cases the School Board have had the sympathy and co-operation of parents and citizens in their management, for which we wish to make grateful acknowledgment.

Very respectfully presented,

JAMES A. BENNETT,	}	School
JOHN A. EDGERLEY,		Board of
H. F. HODGDON,		Tuftonboro.
